Kathy-

I revised both papers and developed the matrix. As our mini-workgroup (Yvonne, Simma, Lauren) should take another look, I can send to them again to review before our next discussion on tribal (or just send to the whole workgroup.) It would be good – if you have time -to take a quick look if you want to send to the full group.

At some point before options selection, not sure when, would be good for Tod Siegal and Fred Leutner to review.

Let me know

Ruth
